Action Plan to Minimize Variable Cost (VC) of UPRVUNL TPSs

Name of the IPP TPS	Variable Charges (Rs/Unit) (01.04.2026 to 15.04.2026)	UNL TPS	Variable Charges (Rs/Unit) (01.04.2026 to 15.04.2026)	Tied IPP for VC reduction and Location	Ways to minimise VC to keep UNL TPS in MoD above tied/ comparable IPP
Bajaj Energy, Lalitpur TPS	3.39	Panki	3.31	Lalitpur, Lalitpur, UP	Already CCL coal with 10 % premium. To improve coal quality, diversion of minimum 10 rakes per month from NCL is proposed.
Reliance Power, ROSA-II	3.75	Parichha	3.69	ROSA, Shahjahanpur, UP	VC will reduce once unit will start operating at full load.SECL rakes (10 rakes per month) will be provided to compansate NCL diversion.
KSK Mahanadi	4.19	Jawaharpur	4.64	KSK Mahanadi, Chhattisgarh	**Target VC= Rs 4.15/Unit**, diversion from CCL (15 rakes/month), NCL (5 rakes per month), loading from SECL.
BEPL, Khambharkhera	4.1	Harduaganj D (2X250 MW)	4.35	BEPL, Khambhankhera, Lakhimpur Kheri, UP	**Target VC= Rs 3.70 /unit**; after reduction in premium.
BEPL, Utraula	3.99	Harduaganj E (1X660 MW)	4.10	BEPL, Utraula, Balrampur, UP	**Target VC= Rs 3.60/unit**
Bara (Prayagraj Power)	2.97	**Rationale for Tie up :- Similer distance from coal mine and avoids demand-based RSD of UPRVUNL TPSs in the first instance.**			
MB Power	2.48				
ROSA-I	3.51
